Your monthly sewage bill consists of a basic service charge and a consumption charge based on water use. **For 2024, the basic monthly service charge will increase to \$15.00. The MATSF service charge is billed to all customers regardless of water use and is primarily utilized for fixed costs such as debt service (repayment of loans), insurance, billing and similar costs. Commencing with your next (February) bill, the consumption charge will increase from \$14.05/thousand gallons to \$14.78/thousand gallons. This is directly a result of ALCOSAN's 2024 rate increase. The entire 2024 MATSF budget is viewable on our website. A typical residential customer using 4,000 gallons of water/month will see an increase of \$5.92 per month, from \$68.20 to \$74.12. The 2016-2024 graphics below depict the portion of sewer charges that are retained by MATSF, and the amount that is paid to ALCOSAN for regional sewage conveyance and treatment. For the typical residential customer in 2024, ALCOSAN will receive \$52.36 (70.6%) of the \$74.12.**
